## Flip Video Camera Ultra HD

Quantity: 80

- Extremely easy-to-use
- Great video quality
- Built-in USB port and software for easy transfer to computer, editing, and upload to Internet
- Lesser audio quality
- Limited editing capabilities

A tripod or setting camera on steady surface is highly recommended.

## Olympus Digital Voice Recorder

Quantity: 10

- Built-in USB port for easy transfer
- Records up to 272 hours on lowest setting, 26 hours on highest
- Built-in mic and ear jacks
- Confusing setup

## Canon PowerShot A480 Digital Camera

Quantity: 2

- Easy to operate
- 10 megapixels
- 128 megabyte memory card
- Transfer pics with USB cord
- Limited battery life

# Canon FS 200 Camcorder

Quantity: 7

*Great for student checkout*

- Compact size
- Shoots pictures
- Easy to operate
- External mic jack

- Medium Quality

Pixela software that comes with camera is recommended for transfer to computer.

# Canon GL2 Camcorder

Quantity: 2

- Professional quality
- Microphone attachments for quality sound

- 1 hour record max time
- Video transfer moderately difficult
- Larger than other camcorders

# Canon Vixia HD Camcorder

Quantity: 4

- High quality
- Shoots pictures
- External mic jack
- Touch screen

- Large file size

# Which Camcorder?

I want a video recorder that is easy for my students to use. Most of them have never used a camcorder before. Which one should they use?

A: Flip Video Camera, Canon FS200

All I need to do is record an action or event with little to no editing. Which one do you recommend?

A: Flip Video Camera

I want a camcorder with more options such as being able to take pictures or string together multiple video clips and add music.

A: Canon FS 200, Canon Vixia, Canon GL2

I want the most professional quality camcorder.

A: Canon Vixia, Canon GL2
