

DAVIDSON COUNTY COMMUNITY COLLEGE

Students

CURRICULUM REQUISITE

POLICY 5.2.7

The purpose of a requisite is to ensure student success in subsequent coursework. While successful completion of prerequisites and/or co-requisites is the traditional way students demonstrate readiness, in exceptional circumstances, students may demonstrate readiness through other means. In such cases, prerequisites or co-requisites may be waived with appropriate approvals and permission by the appropriate Academic Administrator. Documentation of the approved waiver will be maintained on file.

I. Pre-curriculum Placement

The College provides pre-curriculum courses for students to enhance their opportunities for educational success in regular college courses of study. The academic placement of a student is based upon the student's academic record and the College placement process. Depending upon the student's needs, goals, and the results of the College assessment process, the student may be advised to enroll in pre-curriculum courses designed to assist in developing the academic skills necessary for success in college-level courses.

II. Student Success Course Policy

All first time college students with an unweighted high school GPA less than 2.8 are required to complete a student success course in their first semester. If a student fails to complete the course in the first semester, he or she will be registered for it in the following term. If the course is not completed in the following term, the student must complete the student success course prior to enrolling in any additional courses.
